## BIOGRAPHY

*"Within 12 hours, the confetti spread throughout the entire club, after 24 hours, across the entire city and, in the next 48 hours, thanks to Easyjet, across all of Europe."*

DANNY FABER IN THE MOVIE "BAR 25 – TAGE AUSSERHALB DER ZEIT"

Danny Faber is clearly a visionary with a pioneer spirit. In Berlin, during the 2000s, he opened the legendary Bar25 Club with a few friends – a cultural microcosm that would become a source of inspiration to an entire techno generation in the years that followed. In honor of the project, Danny established the music label Bar 25 Music in 2008. In 2020, the label Sirin Music followed. Artists such as Acid Pauli, Nu and Oliver Koletzki are featured by his labels.

In 2012, the pinnacle of the Bar25 era was reached with the cinema movie "Bar25 – Tage außerhalb der Zeit" (Bar25 – Days out of time) and its legendary showcases, co-produced by Danny and his partners. After the closing of the Club, Danny turned his attention towards new projects. In 2013, he opened the Chalet Club in Berlin-Kreuzberg. With this extraordinary location and his courage to conduct musical experiments, Danny again proved his flair for the Zeitgeist of club culture. With Chalet quickly becoming an international well-known institution among artists and enthusiastic nightowls, Danny already began placing his focus on his next project Neue Heimat, Berlin's well known lifestyle brand for food, art and music events.

Besides running his labels Bar 25 Music and Sirin Music, Danny misses no opportunity to perform regularly as a DJ. His unique music style and distinct empathy for the club vibe have taken him to the world's most renowned dance floors. Whether during peak time or after hour – he continually puts the crowd under a spell with his playful sound galaxy.
